Q. What is the purpose of spiritual sadhana?
Baba : "The fruit comes from the tree. But can the tree know
the nature of the fruit?
**When two sticks are rubbed against each other, fire emerges.
But do the sticks know that the fire is latent in them?
Likewise, the Divine is latent in man.
It is through the process of enquiry and sadhana that man can
discover the Divine in him. It is like churning buttermilk to get
the butter in it. Through sadhana and pure love (Bhakti) man
can manifest his divinity."**

" I am equal in all beings, I behave equally with all; I have no love or hate. " Baba.
