

Highlights of the Project: Well Around 50 Feet Deep, capacity 80,000 liter; Reliance HDPE Pipes - 2.5 Kms Length; 2 Tanks - 20,000 Litres & 10,000 Litres; 12 Outlets. Total Cost of Project : Rs. 4,50,000/-.

Chikale village Adivasi School is about 40 Km away from Mumbai.

Highlights of the projects executed in this Adivasi school: A water project to increase water supply to the school; Construction of toilets for students; Sanitation project connecting the toilets with sink; Inverter provided to school to solve the power problem; Fans / blankets and other accessories provided.

The Karjat Water Project

Karjat, at the foothills of Matheran, is surrounded by villages Burujwadi, Dhandwadi, Tepajiwadi, Chinchachimalo and Nimbarwadi, which are 125 meters above ground level, and have a population of over 1200. There is a good waterfall in the area, but due to lack of water conservation techniques, they are forced to carry water from foothills of the mountains after the monsoon was over.

Water storage on the hillock - sponsored by HDFC BANK

In this project a Bund has been built to conserve the water and supplement the well, which acts as the permanent source of water throughout the year. A submersible water pump of 15 HP is installed to pump the water to the height of 120 meters on the hillock. Pipeline measuring approximately five kms is laid to carry the water to the water storage tank of capacity 90,000 litres on the hillock. There are 14 water distribution outlets built to provide cool pure water to the villagers at their doorstep. The project was inaugurated on the auspicious occasion of Ramnavmi, 18th April 2005, by Shri Jagdish Capoor, Chairman, HDFC Bank

Divine Visit To Africa

Dharmakshetra in Mumbai shall always cherish playing host to the Avatar

Develop divine and selfless love which is enduring and infinite.
A true lover of God will experience no sorrow.

on His only sojourn abroad to Africa. Swami's departure to Africa from Dharmakshetra may seem innocuous but, In the 80th year of His Advent as one sees in retrospect, a great significance emerges. Truly the Divine Visit to Africa has become an amazing integral part of the History of Dharmakshetra.

In many ways the Divine Visit to Africa is indeed unique, memorable and meaningful. Africa is the only country outside India on which the Lotus feet of our divine Master has set foot upon. Obviously, there must be some intense magnetic pull of overwhelming devotion of the people of Africa that must have moved our Beloved Bhagawan to make a rare exception from His iron resolve not to travel beyond the shores of motherland Bharat.

It is said that every word and action of Swami is resplendent with immense inner significance and destined to have major impact on the future of mankind. Veritably, the seeds of Sri Sathya Sai Seva Organisation were sown simultaneously at Dharmakshetra and Africa. During His Visit to Africa, in His communications with Prof. Kasturi and Dr. Gokak, Swami mentioned about the plight of the people, and indicated that with His Divine Sankalp good times would augur for the people of Africa.

The African experiment in implementing the Education in Human Values Programme has given a miraculous solution to the water crises which is touted as the cause of the Third World War. This experiment in values education as a panacea for the water crises and the infamous drug abuse has forced the United Nations to take notice of the Message of Educare delivered by Swami with great amazement.

The recognition of the Sri Sathya Sai School of Zambia, also called the 'Miracle School', at Paris in France is also a fruition of the seeds of the divine message on Educare sown by Swami during His historic visit to Africa.

To commemorate this great bond between Dharmakshetra and Africa, the Sri Sathya Sai Trust (Maharashtra) contracted with the Government of Uganda to set up 80 bore wells in Uganda to provide pure drinking water. This would provide succour to thousands of our African brethren who starve for every drop of water. The project is well underway. Thus, it is a small step for the Avatar but a giant leap in the transformation for mankind.

You have to show towards the mother the same love and
spirit of sacrifice with which she has brought you up.
