

Aum Sai Ram

The Sri Sathya Sai Central Trust has made the following Press Release:

April 15, 2011

The health status of Bhagavan Sri Sathya Sai Baba is under constant review by The Trustees and the Members of the Council of Management of Sri Sathya Sai Central Trust in the context of the medical bulletins issued by the Director of the Sri Sathya Sai Institute of Higher Medical Sciences, since the time of His admission to the Hospital on the 28th of March,2011. For several days, His condition was a cause for concern.

In the latest review, as of today, the doctors attending on Him have expressed confidence that He is in a stable condition and is responding satisfactorily to the treatment being given to Him by the team of doctors, though somewhat slowly. They are confident that, if the progress in his condition continues to be satisfactory as at present, it might be possible to shift Him from the hospital to His residence at Prasanthi Nilayam **in about a fortnight**. His residence is being got ready in all aspects to receive Him and provide Him the required level of follow up medical care as also emergency services.

The Trustees and the Members of the Council of Management are gratified to note the spontaneous upsurge of prayers, Bhajans, namasmarana, candle light processions of millions and millions of His devotees all over the globe for his very early and total recovery. Radio Sai, through its Musings, messages and mails from all over the world has been continuously articulating this upsurge. As Bhagavan has repeatedly said on several occasions, it is only the sincere prayers of His devotees that can cure Him. The Trustees consider it their sacred duty to appeal to all the devotees to be calm and sustain their prayers to restore Bhagavan to His normal health at a very early date.

In addition to the above release, I wish to caution all members of the Sri Sathya Sai Organisation not to be misled by various reports appearing in the Media, many of which are sensational in nature and grossly incorrect. We have to maintain our discipline and faith which Bhagavan has repeatedly stressed are the cornerstones for Organisation Members.
