As the medical camp was going on some youth seva dal from pune and phulgaon were sharing experiences of Swami and His works with the village panchayat members of Bakori village. They were overwhelmed to know about Bhagwan's work and mission going on all around the world, none of them had heard about Bhagwan earlier. The Grace of Bhagwan and His Divine presence stood testimony to this. Before the end of the medical camp two members from Bakori Village showed interest of going to Puttaparthi for March month Seva.

We are indeed blessed to be a part of Bhagwan's mission and serve as his instruments.
