

Seva offerings at the Lotus Feet on 22nd March

Sairam Everyone

Sunday 22nd March 2009 was busier than any other Sunday with a number of events planned

Events were flagged off by the inauguration of the Water distribution center at Pune Station ST Stand at 10:00 am followed by a similar inauguration at the Swargate ST Stand both the places the inauguration was done by their respective Depot Managers.

The Swargate ST Stand center was the most discussed and talked about because Swamis blessings were directly witnessed by the youth working towards making it successful. There were challenges to get the municipal connection and a pipeline of 880 ft was to be

laid for it, a sai youth working with Pune Municipal corporation helped us with it, he managed the required resources of 600 ft of pipeline which propelled the other youth to complete the remaining with the Grace of Bhagwan and thus a new milestone was achieved.

Simultaneously the Sri Sathya Sai Gramin Seva Kendra was buzzing with people come to get themselves diagnosed by the doctors

Medical camp started at 11:00 am with the chanting of 3 Aumkars. Following are the updates from the Activities Conducted

Medical & Eye check up - 412 villagers and children were diagnosed and medicines were distributed

72 people were given corrective glasses and 5 cataract operation patients were short listed of which 3 patients have undergone the operation at H V Desai hospital and discharged on Tuesday 24th March 09.

Blood Samples of 87 females were collected for the HB (Hemoglobin levels) tests, which will help identify the deficiencies in them and help us plan the corrective remedies which can be taken.

Vibro medicines were given to 70 patients

All this was conducted with a dedicated group of doctors

General Physicians: 4
Ophthalmologists: 4
Vibro Therapists: 2

This was followed by gopujan and Godaanam of 1 Cow by a devotee from Wanworie Unit.

The final leg of the Gram seva witnessed the inauguration of the Drinking water facility at H U Dhotre Free Primary School Phulgoan, A 2000 litre water tank was erected on a brick and cement foundation, 1 HP Kirloskar submersible water pump is used to draw water from the well in the School premises from a depth of around 100ft, 157 students would be benefited from this water project. During the inauguration the principal of the school mentioned that the school is looking to complete 150 yrs on March 15th 2010 and for which they are having a one year celebration which was kick-started on 15th March 2009 The water facility has marked the beginning of this celebration.

All this culminated with Aarti of Bhagwan at the Gramin Seva Kendra.
